Simple Beach Cottages And Cabanas

7 CABANAS AND COTTAGES

By Car - 5 Hours From Airport

By Air Taxi – 1.5 Hours From Airport

About Mangrove Garden

In the deep south of **Sri Lanka** you'll find **Tangalle**, known for its tranquility, deserted beaches and the unique eco-system, **Tangalle** attracts the more individual travelers to **Sri Lanka**. One side of **Tangalle** bears a small hillock, with a bird's eye view of the surrounding bay up to the far horizon of the palm fringed beach and the shimmering sea. **Tangalle** boasts of clear soft sandy beach and surfing.

Rooms

Two **Beach Cottages** – each with two double rooms and verandahs among coconut groves. One is a single-storey cottage while the other has two-storeys with the double room upstairs having better sea views. These rooms are comfortably furnished with single or double beds fitted with mosquito netting and have overhead fans to keep cool. The attached bathrooms have solar powered hot water.

Five timber **Beach Cabanas** with beach frontage. Each cabana has a double bedroom, steps leading down to a lower level bathroom with hot water shower and a private sitout facing the beautiful secluded beach. The cabanas are furnished with timber double beds fitted with mosquito netting and have overhead fans. They are ideal for single or double occupancy, and therefore perfect for those solo, couples or when with a friend.

Interior Of Beach Cabana

Interior Of Restaurant

Dining

Open-air restaurant with view of the open sea, serving **International** and **Sri Lankan** cuisine. There is no strict menu because the restaurant works only with fresh products, most of the fish that's cooked is from the fishermen who pass by every day! In the restaurant there are eight tables and a little kitchen to give guests a great tasting dish with simple and natural ingredients most of which are grown in the garden.

Facilities And Excursions

The water in front on this quaint location is turquoise blue. This powdery golden sand is silky smooth, and it is the best for swimming and walking enjoyment. **Tangalle** is famous for its sea turtles - you can see them swimming offshore in some of the nearby bays. At **Rekawa** beach the marine turtles come to nest in a five kms stretch of secluded beach.

Go on a fishing trip or on a ferry ride along the lagoon where you could spot numerous species of water birds along the mangroves, and even the odd crocodile.

Visit the famous **Hoomanaya** blow hole which sprouts a huge jet of water, and the **Mulkirigala** ancient rock temple. Those interested in wildlife can take a wildlife safari at the nearby **Uda Walwe National Park** where huge herds of wild elephants are to be seen. At **Yala National Park**, there is a good chance of spotting the big cat of the island, the **Sri Lanka Leopard**.
